

Step into Safety

THE ACTIONS YOU CAN TAKE TO STEP INTO SAFETY

Walking is itself a 'TASK' – pause for a moment to consider your route and activity

Understand the risk to you and your loved ones if you experience an injury

Report concerns to your supervisor and RoES

Use the Close Calls observations reporting system

Stay, alert and focused – pay attention to the levels underfoot

Pause for a moment to consider your route and task

Look down when stepping out of a vehicle or over tracks

Be aware of and manage the impact of adverse weather conditions

Think about manual handling

Don't walk while using the phone
